## EXPERIENCE

### Hooray Agency, Irvine — Full Stack Developer Aug 2021 - PRESENT

Hooray Agency is a Team of strategists to bring creative ideas to light, through digital advertising, and branding content. Working with numerous luxury Hotels & Resorts, Has approximately **100** client websites.

- **CMS (Content Management System)** upgrades, Extending existing library's.
- Upgrades include maintaining **REST APIs** and providing appropriate documentation.
- Created **React components** to be implemented as widgets for **CMS dashboard**.
- Created **Front-End layouts using bootstrap**, and created view models for layouts.
- Technology used include but not limited to the following: **ReactJS, HTML5, .NET 4.x**

**Large project team**, great communication a must, *Utilized GitLabs for Repos*, tracked project updates on Monday.com.

### Host a Fan, Los Angeles — Full Stack Developer Oct 2020 - Aug 2021

Host a Fan is a Website for Hosting Special Events. Bringing Fan's closer to enjoy concerts, magic shows, to birthday parties from Famous Pop Stars to the Host themselves.

- Wrote implementations for Discount Coupons for events in application.
- **Utilized Material UI for Front-End React Components** for application.
- Technology includes: **C# .Net Core, SSMS, ReactJS**.
- Key components to provide solutions, Database CRUD layers, Store Procedures, React Component Library.
- **Required Api Controller and DTOs Api.**

Project Team was a large development team, with medium groups. **GitHub was used heavily to maintain project code** and to avoid redundancy with the help of Peer approved code(merge request), following best programming practice!
